

## Configuring the Netcomm NP803N

1. Launch any browser e.g Internet Explorer, Google Chrome, Firefox, etc. In the address bar, type <http://192.168.20.1>

2. It will prompt for a password. It will ask for the router login credentials

Username: admin

Password: admin or your wifi password <== of none of the passwords you know are working, then you may need to reset the router to factory settings. Please contact support for assistance before doing so.

3. Click on **Internet** on the left handside and choose *PPPOE* from the type as seen in the screenshot below. Enter your Clear Networks (ending in @clearmail.com.au) login credentials.

Authentication: Auto

MTU: 1480

Type: Keep Connection.

Click Apply on the lower right.
